## NATIONAL EMERGENCY FUND

A mass meeting of citizens is called, to be held in the Opera House on Wednesday next, December 16th, for the purpose of forming a local branch of the Red Cross Society, in order to be able more effectively to conduct the relief work within the town.

This meeting is called by His Worship Mayor Farmer; to commence at 8 p.m. sharp, and a large attendance is requested.

### SKATING AT THE

#### ARENA SUNDAY

We are asked to announce that the Blairmore Arena will be open for skating on Sunday next from 4 to 6:30. A silver collection will be taken, the entire proceeds to go towards the local National Emergency Relief Fund.

### B.P.O.E. ELECT OFFICERS

At the regular session of Blairmore Lodge No. 15, B.P.O.E., held on Tuesday evening of this week, election of officers for 1932 took place. The new slate of officers is as follows:

Exalted Ruler—H. O. Westrup.  
Immediate Past Exalted Ruler—W. W. Scott.

Leading Knight—A. Vejprava.  
Loyal Knight—F. H. MacKny.  
Lecturing Knight—J. V. McDougall.

Secretary—J. R. McLeod, re-elected for the eighth term.

Treasurer—(To be filled).  
Inner guard—W. Howe.

Tyler—C. Sartoris.  
Trustee, three year term—E. A. Harper, who with J. E. Gillis and J. A. Kerr, will form the board of trustees for the coming year.

The officers of esquire, chairman, historian and organist are to be appointed by the incoming exalted ruler prior to the installation, which will be held in all probability on January 26th, with Harold Pinkney, district deputy grand exalted ruler for this district, in charge.

### CHRISTMAS EDITION

#### TO APPEAR NEXT WEEK

Advertisers are reminded that The Enterprise special Christmas edition will appear on Thursday next, December 17th, and copy for advertisements should reach us early as possible.

Contributors of special articles are also invited to forward same as soon as possible.

Our Christmas number will be unusual contain from fourteen to twenty-five pages of interesting matter.

### BOXING TOURNAMENT AT LOCAL OPERA HOUSE

A grand open boxing competition will be staged at the local opera house on the evening of Wednesday, December 23rd, open to boys of the Crows' Nest Pass. Weight not to exceed 140 pounds with age limit to eighteen years.

We understand the first prize is to be a gold engraved cup, which is now on exhibition in the window of Trono's jewelry store. There is also a prize cup for the runner-up.

Tournament starts at 9 p.m., and entries may stay for the Burrill-Hughes match, free, that night. Entries to be made with F. Barringham, promoter.

See bills for further particulars.

The remark was made at the arena Tuesday night that Frank should remain in the wild woods, where his pugilistic efforts would offend nothing but trees.

### TOWN COUNCIL VOTES

#### \$250 TO NATIONAL RELIEF

At the regular meeting of the Blairmore Town Council on Monday night, attended by His Worship Mayor J. H. Farmer and all councillors, the sum of \$250 was unanimously voted as an initial contribution towards the National Relief campaign. The appeal for same was ably advanced by Mr. A. Greig, chairman of the local committee, who explained fully the purpose of the campaign and the benefits that will be derived locally. He informed the council that his committee had the local programme well in hand and were meeting with literal response.

The minutes of previous regular meeting were read and approved and a number of accounts were passed for payment.

### DEATH OF WILLIAM CYR

There passed away at the local hospital on Saturday last, a well known local character in the person of William Cyr, at the age of thirty-eight, following a brief illness and a very critical operation.

Mr. Cyr was predeceased by his wife about a year ago, leaving him with a number of small children, who are now left orphans.

The remains were laid to rest in the Catholic cemetery yesterday.

### ELKS' MEMORIAL SERVICE

The local Elks will hold their annual Memorial Service in the Moose Hall on Sunday next, at 3:30 p.m.

There will be the usual programme, consisting of addresses by Bro. J. E. Gillis, P.E.R., and Rev. J. W. Smith, B.D.; solos by Mrs. Kerr, Mrs. Bannan, and Miss Tompkins, with Misses M. Chardon and Irene Chappell as accompanists; and Mr. Frank Johnson, violin solos.

### CAPT. W. A. BEEBE HONORED

At a banquet held at Hillcrest on Saturday night last by members of Hillview Chapter No. 15, Royal Arch Masons, our esteemed townsmen Capt. W. A. Beebe was suitably honored on attaining the diamond jubilee of his reception into the order, when he was presented with a life membership certificate. G. E. Cruickshank, M.L.A., presided in his amiable style as chairman and toastmaster and R. E. Donkin made the presentation, while gathered around the table were many of long association with the recipient since his residence in Blairmore.

Capt. Beebe, through being favored with a goodly share of the span of life, has achieved what life accords to a very few, the envy of all—sixty years continuous membership in a fraternal order. He received his Royal Arch Degree in Cairo Chapter No. 71, Cairo, Illinois, on December 5th, 1871, being initiated into Masonry November 21st, 1870, by Portsmouth Lodge No. 190, Bay City, Michigan. Besides being an active member of the Masonic Order, for the same number of years he was connected with the Odd-fellows.

A few years ago, "Cap" passed his four-score year mark, but still takes an active interest in his own and community affairs. In a recent issue of the Lethbridge Herald, under the heading of "Men," appears the following:

"Anyone who spent the years from 1898 to 1900 in the Yukon and kept his eyes and ears open and was will-

## Peace On Earth

As the Christian nations of the world again prepare to observe the anniversary of the birth of Christ the thoughts of their peoples are impressed anew with "the glad tidings of great joy" with which the herald angels announced the coming of the greatest event in the history of mankind, the precursor of "peace on earth, goodwill toward men." So it is as Christmas approaches that we dwell upon thoughts of home, and peace, and friendship, and goodwill, and seek to banish from our minds old enmities and ill-will.

Nevertheless, to many it will appear as if "peace on earth" is still a vision of the future, an ideal that may some day be realized, if and when the Christian nations of the world realize the inconsistency of their attitude in maintaining huge armaments while at the same time professing to be peace-loving.

Christmas with its thoughts and ideals of peace can be made to serve the great purpose this year, perhaps to a greater extent than ever before, of cultivating a "will to peace" among people in general. Until there is such a strongly ingrained will to peace, there will be, and can be, no permanent peace, no permanent security against the horrors and destruction of war.

There is in evidence in many quarters a tendency to sharply criticize and condemn the League of Nations as ineffective and timid in its handling of the crisis that developed between China and Japan in Manchuria. The League has always had its enemies, while others have been lukewarm in its support, often proving more of a handicap than a help to the League in its efforts for world betterment. In practically every impending crisis that has loomed upon the international horizon since the League was established, some newspapers and public men have denounced the League as a failure.

Yet the League has survived and has been the instrument through which more than one impending open conflict has been averted. Even in the present Manchurian crisis, notwithstanding the clashes which have taken place, can any fair and open-minded citizen doubt that, had there been no League of Nations, a sanguinary war would now be raging in Asia with all the dire probabilities that it would spread and engulf Europe and possibly provoke another world disaster!

The League is not perfect. It cannot always attain to its highest ideals. It cannot always achieve everything it desires. The difficulties which confront it, and the problems which it must solve, are prodigious. Even should it utterly fail on some one occasion to prevent war, and such failure has not yet been recorded against it, it would not necessarily mean the end of the League, nor that its efforts were wholly futile.

The League of Nations is the great clearing house, the arbitration court of the world's international difficulties. As such it is deserving of the support of all peace-loving people of all nations. Instead of being critical of its efforts and its achievements where they do not prove 100% efficient, all peace-loving people should be boosters and enthusiastic supporters. Destroy the League and the world would be thrown into chaos, with the one great restraining influence of an impartial international character removed, and the proponents of the gospel of force given a free hand to promote their evil designs.

As the world progresses towards greater enlightenment, to better understanding between all nations, to an abandonment of narrow nationalism in favour of true internationalism, and the League is bending its efforts in these directions, so, too, will the League itself grow and develop into an ever increasingly useful factor in world affairs and as an influence for peace. Something better than the League as at present constituted and governed will ultimately take its place when the nations are prepared to support that better organization. In the meantime every Canadian citizen should support the League of Nations supporter. They should demand that their Government continue to support the League actively, and do so in a moral way, an intellectual way, in a financial way.

And this year as we sing "Peace on earth, goodwill toward men" may we sincerely mean what we sing, and may our song be a re-affirmation of our belief in and support of the one great peace organization that arose out of the war which we were told, and which we fondly hoped was true, was a war to end war.

## Were Clever Surgeons

### Swedish Doctors Performed Delicate Operations 3,000 Years Ago

As far back as 3,000 years ago delicate brain operations were performed by Swedish surgeons, according to Professor Otto Rydbeck, in Lund, the old university town of Southern Sweden. The professor stated that fourteen or fifteen skulls found in Swedish soil show marks of trepanation, by Stone Age surgeons. In the parish of Skivard the skeleton of a man of 3,000 years ago, showed that he had been operated on to remove a purulent infection on the brain. The operation, which had not been performed by boring, but by scraping off the bone, had evidently been quite successful, since it was evident that the patient lived for many years afterwards.

## Should Stick To Wheat

Canada is justified in persevering with wheat-growing Western Canada experts, representatives of the Dominion Government, and local authorities agreed, when they met at a day's intensive discussions in an informal conference held at McGill University under the chairmanship of Sir Arthur W. Currie, principal of McGill University, which sponsored and organized the meeting.

California bakers have introduced bread from seaweed.

W. M. 11 1935

## A Practical Wonderland

### "Eye" Of X-Ray Has Revealed Many Interesting Things

An intensely practical wonderland which the "eye" of the X-ray has revealed in the past year was described by about 200 experts at a five-day meeting of the Radiological Society of North America, held in St. Louis. In the wonderland are numerous new views of man's internal economy, including pictures which catch disease near its start and guide medical men toward measures of prevention. Among the things which radiologists say can be seen are sources of coughs and of gas poisoning and beginnings of human life long before birth.

A symposium into some of the general uses of X-rays will be conducted by the United States Bureau of Standards. Another section will tell of work in the fixed nitrogen research laboratory at Washington. Medical subjects will include usefulness of radiation for children, for nerves, cancer and the heart.

Douglas' Egyptian Liniment is especially recommended for spider or infection of cow's teat. Invaluable also in cases of spavin, curbs, and splints.

## Cannot Be Licked

A man may lose his business, his home, his stocks, his bonds, his real estate, his automobile, but his membership in a golf club, but if he does not lose his integrity and his courage and his determination to carry on, he is not and cannot be licked.

## Sleigh and Auto

Ontario spends half a million dollars keeping its roads clear of snow in winter, and Quebec one-tenth of that amount, says the St. Catharines Standard. The sleigh is still the chief mode of winter transportation in Quebec.

Nearly \$450,000,000 will be spent in building homes in Germany this year.

## New Study Of Cancer

Malignant Cells Fed and Then Killed In Various Ways  
The feeding meals to living human cancer cells, which are raised in glass tubes, was exhibited before the Radiological Society of North America, at St. Louis.

The cancer cell chefs are two men and a woman. They are in a scientific movie from the Crocker Cancer Research Institute of Columbia University and at Johns Hopkins University.

The "impersonal" but living bits of real cancer have yielded to their caretakers considerable practical information. Raising these malignant cells is more ticklish than an incubator baby. Regardless of their destructive powers when organized in man, they are delicate things. A single inviolable mold or bacterium floating through the air into their glass homes while they are being fed ruins the whole works.

So they are kept in a specially constructed tunnel, lighted by glass windows. It is big enough to hold a table, upon which the cancer cells live in glass receptacles of various shapes. The caretakers sit outside, thrusting their arms and heads into the tunnel through special openings.

The cells come originally from cancer removed from patients by operation. There are all varieties. They are placed in a mixture made of the clear portion of cattle's blood and certain salts, and then sealed airtight. But they have to be fed regularly every 48 hours.

They are killed in various ways to learn how best to destroy cancer. Some are so sensitive to X-ray and radium that a small dose of radiation kills them, although it would not injure healthy flesh. This kind of cancer can be treated by X-rays and radium. Other types of cells resist the radiation, showing that X-rays and radium would fail to cure.

## Speaks Her Mind

### Miss Agnes MacPhail Believes In Facing The Facts

Miss Agnes MacPhail, M.P., told the Pan-American Institute some plain, blunt facts the other day: "Canadians have retaliated in boycott against United States goods."

"Canada will not stand for concession from the United States." "The Dominion will not tolerate infringement from any one, London or Washington, included."

"Canada will not become a member of the Pan-American Union if it may to play second fiddle."

Well spoken, Agnes! There is truth in every one of those statements, but no man diplomat would have been so candid. The world has been wondering just what would be woman's contribution to public life. Perhaps this is it—plain speaking and facing the facts. In other spheres that has ever been the woman's role.—Vancouver Sun.

## Eclipse Aided Columbus

### Scared Natives Of Jamaica Into Supplying Needed Provisions

The eclipse of the moon on March 1, 1504, proved of much service to Christopher Columbus. Being off the island of Jamaica, and short of provisions, which the islanders refused to supply, he threatened to punish them by depriving them of the moon's light. At first his threat was treated with indifference, but when the eclipse itself began the natives, terror-struck with the apparently supernatural powers of the great Spanish commander, immediately collected provisions for the fleet, and thereafter treated their visitors with profound respect.

## Could Give Some Advice

### Manitoba Pioneer Will Soon Celebrate Her 100th Birthday

Mrs. Joseph Gladue, pioneer resident of the Portage la Prairie district, is qualified to lecture on "How to live to be over 100 years old." Mrs. Gladue will celebrate her 100th birthday on Christmas.

Born in British Columbia in 1824, Mrs. Gladue has seen more than a century of varied life in Canada's northwest. She came to Manitoba 59 years ago and settled in the Raeburn district. Buffalo then roamed the plains of the prairies.

## Married Folks Live Longer

Statistics show that both men and women live longer if they are married than do those of both sexes who remain single. Such is the declaration of Dr. Anne Marie Niemeyer of Berlin, who has collected for the German Women's University material on the development of German family life. Her tables also show that since 1910 men marry at an earlier age than formerly, while women marry later.

## Demand For Graded Beef

### Red Marking For Choice Grade and Blue For Good

Just over two years the Canadian Government Department of Agriculture introduced a policy under which choice or good beef, sold by retail butchers could be identified by a red or blue indelible band on every cut—the red for choice grade and blue for good. Only beef which has passed Federal inspection from a health standpoint can be branded. The sale of this quality beef has exceeded the most sanguine expectations of the promoters of the policy. Government officials began at the opening of 1931 to check up on the sale of the branded beef, after allowing a period of 15 months as an experimental stage. In January, 1931, the total number of pounds of red and blue branded beef sold was 867,000, by July the sales were nearly 2,000,000 pounds. It is estimated that 15,000,000 pounds of branded beef have been sold in Canada this year and more cattle have been sold in the Dominion for branding than have been exported to the British market.

Not all eligible beef is branded, the amount of branding done by various plants being more or less according to existing orders from the trade and as well to part the expectation of demand during the following week or so. In this connection it is interesting to note that in recent months meat packers have quite often found themselves short on supplies, as a result of a strong steady pick-up in inquiry from the consumer.

In certain areas there are producers' organizations which have a definite policy with the production of beef eligible for branding as the main objective. The consumer preference for branded beef is being reflected back to the producer and is stimulating better feeding. The demand for suitable cattle has, throughout 1931, been a constant factor on the market, and in view of the fact that there will be a very liberal supply of cattle grain-fed during the coming winter it is likely that demand for graded beef will play an important part in the spring and summer markets.

## Recipes For This Week

(By Betty Barclay)

### JELLIED CARROTS AND PEAS

1 package lemon-flavored gelatin.  
1 cup boiling water.  
½ cup vegetable stock or cold water.  
½ teaspoon salt.  
1 cup cooked carrots, diced.  
1 cup boiling water.  
3 tablespoons vinegar.

Dissolve gelatin in boiling water. Add vegetable stock, vinegar, salt, and paprika. Chill. When slightly thickened, fold in carrots and peas. Turn into molds. Chill until firm. Unmold on crisp lettuce. Garnish with mayonnaise. Serves 8.

## RIBBON SANDWICHES

Sandwich bread.  
Softened butter.  
Sweet pickle relish.  
Mayonnaise.

Slice bread in slices ¼-inch thick. Spread first slice generously with softened butter, then with sweet pickle relish moistened with a little mayonnaise. Cover with a second slice of bread, buttered on both sides. Spread the second slice with mashed pimiento or cream cheese. Top with third slice of bread. Press slices firmly together. Remove crusts. Wrap in a damp cloth and place in refrigerator under a heavy weight for several hours. To serve slice very thin and serve immediately.

## U.S. Leads In Civil Planes

Figures recently compiled by the Society of British Aircraft Constructors show there are more than 17,000 civil aeroplanes in operation throughout the world. Of these the greater number are in service in the United States. The British Empire, taken as a unit, comes second in the list. France and her empire third, and Germany fourth.

Makes Breathing Easy. The constriction of the air passages and the struggle for breath too familiar evidence of asthmatic trouble, cannot be relieved by any other means than Dr. J. D. Kellogg's Asthma Remedy. This is the famous remedy which is known far and wide for its complete effectiveness even under severe conditions. It is no untried, experimental preparation, but one with many years of strong service behind it. Buy it from your nearest dealer.

Eleven plants in Canada produced in 1930 over 95,500,000 pounds of wire nails and spikes. The Dominion exported during the year 3,593,000 pounds of nails and imported 1,063,000 pounds.

## National Research Council

### Plans Made For Further Improvement of Canadian Wool

Attended by representatives of both manufacturers and producers of wool and delegates from various Canadian universities, the annual meeting of the National Research Council's associate committee on wool was concluded recently at Toronto. Marked by a general readiness to co-operate in solution of the problems facing the industry, the meeting authorized the continuation of plans for further improvement of Canadian wool.

Results from experiments designed to develop a type of sheep suited to western range conditions were deemed so satisfactory, the committee decided to assemble the wool from three of the four provinces, compare it with fleece obtained from similar strains in other countries, and then follow it to a Canadian manufactured product.

## GOVERNMENT HOUSE, OTTAWA

The Christmas Seal Sale of the Canadian Tuberculosis Association, of which we are Patron and Patroness, has our warmest support.

The struggle against the spread of tuberculosis is one in which every good citizen is concerned, for there is no disease that has more deadly effects on the health of a nation; its prevention and its cure call for unceasing vigilance and expense.

The Canadian Tuberculosis Association has taken a noble part in this struggle, and evidence of its work may be seen in all parts of the Dominion. The work has brought health and strength to thousands and has averted from many other thousands, especially children, what is perhaps the most hideous of all the dangers to which the human race is exposed.

We ask those who can, to show their appreciation of what the Association is doing by helping this Christmas to make the results of the Christmas Seal Sale even more successful than it was last year.

## Value Of Fish Meal

### Use Is Steadily Increasing As A Ration For Livestock

Dr. Frank T. Shutt, Dominion Chemist, in discussing the nutritive value of fish meal states: "The use of fish meals in the rations of all classes of live stock and especially in those for pigs and poultry is steadily increasing." These meals may, perhaps, be regarded primarily as sources of protein, but the fat, the mineral content and the iodine are also constituents of very considerable value in stock feeding. He points out also that edible fish meals must be made from fresh fish. The flesh of the fish is the most valuable source of protein, while the mineral content is highly valuable.

## Fixed It All Right

"Did you mail those two letters I gave you, Norah?"  
"Yes'm, at the post office. But I noticed that you'd put the 2-cent stamp on the foreign letter, and the 6-cent stamp on the city one."  
"Oh, dear, what a blunder!"  
"But I fixed it all right, ma'am. I just changed the addresses on the envelopes."

## Keep Foods Deliciously Fresh

Keep your foods—cakes, bread, pies, cut meats, etc.—under a covering of Para-Sani Heavy Wax Paper. You'll be amazed at the length of time they'll stay fresh...delicious! Para-Sani keeps them from staling. Get Para-Sani in the handy, sanitary knife-edged carton. For less exacting uses ask for Appleford's "Centre Pull" Packs in sheet form.

Appleford Paper Products

## HOME RULE BILL FOR INDIA HAS BEEN APPROVED

London, England.—The House of Commons gave its overwhelming approval to the Government's policy of Home Rule with safeguards for a federated India. The adoption of a motion of confidence closed two days of debate and followed the rejection by 380 to 43—A Government majority of 326—of an amendment moved by Rt. Hon. Winston Churchill, former Conservative Chancellor of the Exchequer.

As in the Indian debate of nearly a year ago, Churchill and his leader, Rt. Hon. Stanley Baldwin, again differed sharply. The former chancellor was as critical of the National Government's Indian policy as he was when Prime Minister Ramsay MacDonald, as head of the Labour Government, enunciated it nearly a year ago.

The Conservative Leader is now a cabinet colleague of the Prime Minister's and again endorsed the policy.

Led by Rt. Hon. George Lansbury, the Labour Opposition also endorsed the policy. Following the defeat of the Churchill amendment, the main government motion of confidence was adopted without division.

Churchill's amendment would have added to the Government motion of approval, the following: "Providing that nothing in said policy shall commit this House to the establishment in India of a Dominion of India as defined by the statute of Westminster; provided, also, the said policy shall effectively safeguard British trade in and with India from adverse or prejudicial discrimination; and, provided further, that no extensions of self-government in India at this juncture shall impair the ultimate responsibility of parliament for the peace, order and good government of the Indian Empire."

Bench on both sides of the House were filled. In the gallery, many Indians. And repeated applause from the back benches of the Government indicated sympathy with Churchill's views. He charged that grave responsibility rested upon those who, with the government, cast aside the recommendations of the Simon commission and departed from ordinary constitutional procedure prescribed by law.

All the while, proceeded the former Chancellor of the Exchequer, could see there was an apparent absence of backbone in Imperial affairs. It was said on the continent that "England always will give way to whoever shouts the loudest." It was said England had lost her capacity for guiding and if she were pressed far enough, if certain phrases were repeated, England would submit as if under a spell of witchcraft. Waving in the air a white paper setting forth the Government's policy, Mr. Churchill described it as one of the queerest state papers he ever saw.

Sir John Simon, who was chairman of the Indian commission which bore his name, said the white paper was a document prepared not by the individual who was head of the Government, but on an unaided and deliberate decision of the whole cabinet.

## MacDonald Going To Geneva

Plans To Attend Disarmament Conference In February

London, England.—Prime Minister Ramsay MacDonald will head a British delegation including six cabinet members to the disarmament conference at Geneva in February, he told the House of Commons.

The other members are Sir John Simon, Secretary of State for Foreign Affairs; Rt. Hon. J. H. Thomas, Secretary of State for the Dominions; Viscount Hallam, Secretary of State for War; Sir Bolton Eyres-Monsell, First Lord of the Admiralty; and the Marquis of Londonderry, Secretary of State for Air. The Prime Minister said he hoped it would be unnecessary for all of the ministers to be in attendance at the same time.

A Paris despatch says Premier Pierre Laval may attend personally the opening of the conference. In League of Nations circles reports are current that several nations were likely to see the conference postponed, believing the present world situation is not the best in which to hold it, but France is prepared actively to object to a postponement if the move should take concrete form.

India's present acreage devoted to sugar is the largest in the world.

W. N. U. 1919

## Communists Appeal

Protest Against Jail Sentence Imposed By Toronto Judge

Toronto, Ont.—Appeals have been entered by the eight Communists convicted and sentenced on November 12 of being members of an unlawful association and parties to a seditious conspiracy. The appeal was based on the grounds that there was no evidence to show "that a revolution if it came about as a result of the teachings of Communism, would be accompanied by force, violence, terrorism or physical injury to person or property."

The accused claim the judge erred in excluding oral evidence by the defence as to the doctrine, teachings and objects of the Communist Party of Canada, while admitting such evidence on behalf of the crown; that the judge was in error in refusing evidence tendered by the defence to show the Communist revolution has in fact been peaceful.

Further, the appellants claim the judge erred in refusing to allow the programme of the Communist Party of Canada as evidence for the defence; that the charge of the trial judge to the jury "as a whole unduly emphasized the evidence against the accused and failed to place the defence fully and fairly before the jury."

Finally, it is contended the trial judge erred in admitting evidence of seized documents as against the Communist Party of Canada.

## Wheat Tariff Asked

British Millers Suggest Two Shilling Preference On Grain From Canada

London, England.—Representatives of the British four milling industry suggested to Sir John Milner, Minister of Agriculture, the imposition of a general tariff of four shillings a quarter (eight bushels) on imported wheat, the Daily Express said recently. Coupled with this was the suggestion of a two-shilling preference on wheat from Canada or other Dominions, the paper adds.

The millers, the Daily Express says, argued against the Government's proposed wheat quota scheme, contending it would disorganize the trade.

Another suggestion made to the Minister of Agriculture was a duty of four shillings be imposed on unadulterated foreign wheat stored in Great Britain, particularly the thousands of tons of Soviet grain lying in port elevators.

## Date May Be Changed

Imperial Conference Likely To Open Earlier Than July

London, England.—Plans for the Imperial Conference, to be held in Ottawa will be speeded up, says the Daily Express. The National Government, the paper says, hopes arrangements will be made permitting the conference to open earlier than July, the date mentioned for some time.

Discussions are progressing between the British Government and those of the Dominions in regard to arrangements for the conference. The presence in London, England, of Prime Minister R. B. Bennett of Canada, has helped to complete the preliminaries, the paper adds.

## Fails To Beat Record

Hawks Overcome By Monoxide Gas Fumes Is In Hospital

Yreka, Calif.—Overcome by monoxide gas fumes from his motor as he streaked through the sky seeking a new three-day speed record between Vancouver and Agua Caliente, Mexico, Capt. Frank Hawks was forced to dive dizzily to earth before he lost consciousness. He is suffering from congestion of the lungs and pneumonia.

The poisonous effects of the gas Dr. Victor Hart, his physician, said probably would keep the flyer in bed for a week and he had ordered the aviator to rest as his condition was more serious than at first diagnosed.

## Former Official Dead

Winnipeg, Man.—A. H. Corelli, 75, former clerk of the Manitoba Legislature, died December 2. He served overseas with the rank of lieutenant-colonel, commanding a unit of the Canadian Army Service Corps, from 1887 until 1915, when he resigned to go overseas, he was clerk of the legislature.

## Will Fight Trachoma

Ottawa, Ont.—Dr. J. J. Wall, of Ottawa, has left for western Canada where he has been detailed by the Department of Indian Affairs to make a determined effort to stamp out trachoma among the Indians.

## Out To Increase Trade

Stevens Hopes To Make Arrangements With Fiji And Hawaiian Islands

Montreal, Que.—Hon. H. Stevens, who according to present plans will sail from Vancouver on December 19 for Honolulu to negotiate with Hon. D. Stewart, Minister of Finance for New Zealand, in regard to a separate trade treaty with that Dominion, will also, it is understood, endeavor to negotiate more advantageous trade arrangements with the Fiji Islands and the Hawaiian Islands.

The Fiji Islands, the despatch states, sent Canada \$3,669,572 of sugar and some butter in 1930, and return Canada sold only \$431,000 worth of goods including lumber, canned fish and automobiles.

## RAIL WORKERS NOT WILLING TO TAKE WAGE CUT

Montreal, Que.—The railway systems have advised representatives of the running trades that a 10 per cent. cut in wages is to be made from November 15, states Hon. James Murdock, vice-president of the Brotherhood of Railway Trainmen, and a protest on behalf of the men has been made to the Labour Department at Ottawa.

Notification has been given the men, said Senator Murdock, who represented the employees before the Conciliation Board which recommended the reduction, that pay cheques on December 15 will be issued on the basis of the reduced rate. These cheques, according to the method of payment in use by the railways cover wages earned between November 15 and 30.

Montreal, Que.—"Anybody who talks in that strain in these days has not followed closely the recent trend in labor disputes. The period of the iron fist is buried," stated Hon. James Murdock, member of the senate and vice-president of the Brotherhood of Railway Trainmen, Wednesday night, December 2, when asked if there was any possibility of a strike in connection with the majority award of the Board of Conciliation which decided the railways were entitled to a reduction of 10 per cent. in the wages of their "running trades" employees.

The conference committee of general chairmen, representing the engineers, firemen, conductors, trainmen and telegraphers on the Canadian National and Canadian Pacific Railways found the majority opinion of the Board of Arbitration unacceptable, the two railways have been advised. The matter would be referred back to the 20,000 employees concerned, the railways were informed. In a letter sent to every division of the employees the general chairmen asked them to decide if a local ballot should be undertaken. Each district was requested to send its reply to the chairman of the conference committee not later than December 15.

What the next step will be remains for the future. Strong efforts to reconcile the disputants will be put forward. Officials at Ottawa expressed hope that some means might be devised of getting the affected parties together and ironing out the difficulties.

## A Sleigh From Old Montreal

A generation before Wolfe and Montcalm settled the destiny of Canada on the Plains of Abraham, a French gentleman of Montreal imported what was then the most magnificent sleigh in the New World. It was built in Paris in 1720, and for many years was the pride of early Montreal.

The sleigh was typical of the period in which it was built, the iron work being hand wrought and gilded. It is attracting a great deal of interest, especially among students of early Canadian history.

## ON LAMBETH COMMITTEE

The Right Reverend J. C. Roper, Bishop of Ottawa, who has been appointed to the consultative committee of the Lambeth Conference. He expects to go to London in the spring.

## Prince Of Wales Ill

Has Attack Of Malaria Is Report Of Physicians

London, England.—The Prince of Wales has been forced to stay indoors because he was suffering from a chill. His condition was not serious, it was authoritatively reported, and no physicians' bulletins will be issued. The Prince's illness made it necessary for him to cancel plans to attend a naval inspection at Portsmouth, at which he was to have represented the King at the presentation of the colours of the Portsmouth division of the Royal Marines. Prince George substituted for him.

The Daily Mail says the "chill" is an attack of malaria and that Sir Stanley Hewitt, one of the physicians who attended the king during his illness, visited the prince. He suffered a mild attack of malaria last March while hunting in Africa and was obliged to return to Nairobi, where he quickly recovered.

## Farmers Still Hold Wheat

Over Thirty-One Million Bushels In West Now Yet Marketed

Winnipeg, Man.—A total of 31,222,000 bushels of wheat and 11,510,000 bushels of other grains still remain in the hands of farmers located along the lines of the Canadian National Railways and is yet to be marketed.

Of the grain remaining in the hands of the farmer, Manitoba holds 4,000,000 bushels of wheat and 3,130,000 bushels of other grains. Saskatchewan holds 10,645,000 bushels of wheat and 3,325,000 bushels of coarse grains, and Alberta holds 16,797,000 bushels of wheat and 5,052,000 bushels of other grains.

## Food Dictator For Germany

Berlin, Germany.—Appointment of a "food dictator" for Germany is forecast in government circles. It was stated the official would probably be empowered automatically to reduce wages costs of industrial and food products. He would also have the power, it was stated, to prevent wage cuts in factories unless a similar saving was passed along to the consumer.

## States Asking For

Canada's Co-Operation

In Creating International Agency For Conservation Of Game

New York, N.Y.—The American Game Association, in convention unanimously adopted a resolution asking Canada to join the United States in creating an international agency to foster water fowl restoration and acquisition of large breeding areas and wintering grounds.

Hoyes Lloyd, supervisor of wild life protection, parks branch, of the Canadian Department of the Interior, Ottawa, was elected a vice-chairman of the American Game Conference.

David H. Matsen, Salt Lake City, Utah, Federal Supervisor of Wild Life Resources in National Parks for United States, was elected chairman.

## Germany's Move May

Affect Canadian Goods

Export Trade Will No Doubt Suffer Through Prohibitory Duties

Ottawa, Ont.—While Canada has no trade treaty with Germany, there has been a considerable export trade from the Dominion to that country which may be adversely affected by the "prohibitory" duties forecast in Berlin despatches.

During the year ended March 31, Canada exported a large variety of commodities to Germany, wheat being predominant with exports valued at more than \$4,000,000, and wheat flour valued at more than \$3,500,000. Other grains, fruit, fish, furs, lumber, farm implements, minerals and food products also figured in the volume of exports last year.

## MIXED FARMING WILL NOT SOLVE PROBLEM OF WEST

Montreal, Que.—It is a mistake to think that diversified farming will solve all of western Canada's problems, Dr. W. W. Swanson, economist and grain expert from Saskatchewan University, who accompanied Premier R. B. Bennett to the last Empire Conference in Berlin, said here.

Dr. Swanson was referring to the newly established \$5,000,000 revolving credits fund, sponsored by President E. W. Beatty, of the C.P.R., to help the western farmers towards diversification.

He did not belittle its value to the farmers of northern Alberta and Saskatchewan. Indeed he stated that it would be of considerable benefit to livestock and grain, really kept rotating and fluid, as it would supply an intermediate form of credit between the short-term loans of the banks and the long-term mortgage companies' loans.

"But there are large parts of the prairie provinces where it will be quite impossible for the farmers to make a general turnover to mixed farming," he said. "These areas have a small rainfall. They have little or no water at all available for livestock and cannot benefit from the plan. Yet they produce the bulk of our present wheat crops."

"Even to be of real value to those western farmers who are so fortunately situated that they turn more to diversified farming than they already have, the rotating fund will be useful only as long as great care is used not to attempt too fast a diversification of agriculture."

"The danger which is too often ignored," Dr. Swanson said, "is that too rapid a shift towards the production of livestock would depress the markets and freeze the credits, thus entirely offsetting the benefits of diversification."

## Canada Buys Carriers

For Machine Guns

Number Have Been Purchased By Department Of National Defence

London, England.—Canada is taking the lead among the forces of the Empire in the modernization of infantry forces, the military writer of the Daily Telegraph says. He devotes half a column to an account of the equipping of three Canadian permanent force battalions with armored machine gun carriers. This he says, has increased greatly the offensive strength of the forces.

Ottawa, Ont.—The Department of National Defence several months ago purchased a number of Farber-Lloyd machine gun carriers and during the past summer highly successful experiments were carried out. Several battalions of the Royal Canadian Horse Artillery have been mechanized for the past 18 months.

## DOMINION LOAN OVER-SUBSCRIBED BY LARGE SUM

Ottawa, Ont.—Total subscriptions for the National Service Loan amounted to more than \$215,000,000 when the books were closed, it was made known in a statement issued by Hon. E. N. Rhodes, acting Minister of Finance. The Government will accept the full amount subscribed.

The statement follows: "The amount the Government asked the Canadian people to subscribe was \$150,000,000, and when it became apparent, November 28, that the full amount was in sight, the Government decided the books would be closed November 30.

"However, the volume of applications for December 1 delivery, for which the Government agreed to make provision, exceeded all expectations, with the result that in the space of one week the Canadian people subscribed both the \$150,000,000 asked for and an additional sum of over \$65,000,000.

"To scale down subscriptions without discriminating between subscribers was practically impossible, due to the fact that from the day the books opened cash was paid and interim bonds were issued. It is the Government's decision to accept the full amount."

"The excess over \$150,000,000 is to be used for the purpose of redeeming outstanding obligations of the Dominion of Canada in the form of treasury bills and bonds. Steps already have been taken to put this program into operation and when completed the net increase in the obligations of the Dominion of Canada will be \$150,000,000."

## Wheat Quota Likely

To Be Adopted

Premier Returning To Canada With Provisional Plan Says London

London, England.—Varying forecasts of the Empire wheat quota to be adopted by the British Government are made by two London newspapers, the Daily Telegraph suggests the Empire quota should be fixed at 70 per cent. of Great Britain's wheat requirements. The Daily Herald says, if a quota is adopted, the home-grown requirement will be fixed from 12 to 15 per cent. and the Empire requirement, 45 to 45 per cent. The remainder would come from foreign countries.

Prime Minister R. B. Bennett of Canada, says the Daily Telegraph, has discussed the quota question with Prime Minister Ramsay MacDonald and other ministers. Details of the scheme, the paper says, have been laid before him and he will return to Canada with the assurance a quota likely will be adopted. The Telegraph says it is doubtful whether the quota of the Empire quota can be worked out before the Imperial Conference meets in Ottawa next July. The Daily Herald says the sudden decision of the Canadian Prime Minister to return to Canada is because he will carry home with him a provisional proposal from the British Government.

## Gift To Aid Club Work

International Harvester Company Donates \$20,000 For Agricultural Education

Ottawa, Ont.—Cheque for \$20,000 to aid in the spreading of agricultural education among the farm boys and girls of Canada has been received by Hon. Robert Weir, Minister of Agriculture, from George A. Ranney, vice-president and treasurer of the International Harvester Company. The money is a gift to the Canadian Council on Boys' and Girls' Club work. A permanent trust fund will be established, the income from which will be used in furthering the extension and usefulness of the movement.

## Prizes For King's Stock

Edinburgh, Scotland.—Entries for the king's stock farm, won a cup, two first prizes, and two seconds in the annual Scottish national fat stock show. His majesty's herd won first prizes for three-year-old steers, three-year-old heifers and seconds for four-year-old steers.

The money is a gift to the Canadian Council on Boys' and Girls' Club work. A permanent trust fund will be established, the income from which will be used in furthering the extension and usefulness of the movement.

## Grain sent at Edmonton think separating of garnet wheat would mean a loss to south Alberta farmers.

**W. J. BARTLETT, PUBLISHER**  
Blairmore, Alta., Thur., Dec. 10, 1931

**CANADA'S NATIONAL EMERGENCY**  
Under the personal direction of the Prime Minister of Canada an emergency relief appeal is being launched today. The campaign following this appeal will be continued for one week. Its purpose is to raise money by private subscription to help give relief in cases where the necessity is urgent, and in those where the usual provisions of government or municipal relief are not applicable or available. Moreover, it is desired to give a more human touch to the relief of the necessitous at this period of emergency in our national life than is possible through the usual means of distribution of relief.

The effort is supplementary to the work of governments and municipalities throughout the country. It is not intended to remove the burden, nor the responsibility, of initiating and carrying through relief measures from these bodies. It is, however, expected that through the agency of this fund the occurrence of actual want among the people of this Dominion may be materially lessened if not absolutely avoided.

In Alberta the quota of the campaign has been set at \$100,000. One-half of this is expected to be raised in the northern half of the province, and the other half in the southern areas. Edmonton is the centre for the north, and Calgary for the South. But the south has been further divided by the allocation of districts to Lethbridge, Medicine Hat and Drumheller. Of the amount raised as a result of this campaign, 50 per cent will be allotted immediately for use in the districts concerned. The other 50 per cent will be sent to the headquarters of the Red Cross Society of Canada at Ottawa, to go into a common fund to which similar contributions will be made by every district participating in this campaign.

The purpose of this common fund is to make available resources that can be used to the best advantage where the need is most urgent throughout the country. For instance, it is known that large areas of Saskatchewan and parts of Alberta have been drenched and crops in those districts have been practically nil. These will be suitable areas in which the expenditure of money from the common pool will be made. As far as the southern part of Alberta is concerned, it is altogether likely that the money eventually expended as a result of the campaign will be greater than the amounts subscribed by the same districts. More is likely to be poured into the province than out of it.

As a medium of distribution, the organization of the Red Cross Society of Canada is to be used. There are two reasons for this: One, and the main one, is that the Red Cross Society is the only society extending throughout the country with an organization able to be set in motion immediately to help relieve distress. It has its branches in many towns, cities and communities, and is able to discover the need of the particular districts quicker than other organizations. The second reason is that the society has already surveyed and listed in many areas the needs of those who are not directly affected by relief measures hitherto undertaken and can bring them that aid which is best given when given quickly.

In the rural districts those who wish to contribute to the fund need not give cash exclusively. Grain donations will be accepted with gratitude. These can be made simply by notifying the agent at the elevator where grain is delivered that so much

if it is a donation to this appeal and campaign. Elevator agents have been instructed on this point and will do all that is necessary once they are authorized to allocate grain to the fund.

Churches, theatres, newspapers, the municipal organizations, benevolent societies of all kinds, women's institutions, U.F.A. locals and others are co-operating in this campaign.

The Prime Minister himself has seen fit to label it a National Emergency Relief Appeal, and the spirit of the country is such as to respond to the urgency implied in this title. It is confidently expected that the national spirit, which can be so strongly displayed on occasions of this sort, will induce all people to give according to their means to the end that distress and want may be banished from the country.

In this connection, it might be made clear that, while the administration of the fund is left with the Red Cross Society, that society is not in any way to benefit financially therefrom. The appeal is not for the benefit of the Red Cross Society, but is to be administered in your district where direct needs are apparent.

"Fill her up," said the absent-minded sheik to the waiter as he parked himself in the restaurant with his sweetie.

When someone remarked that Roland had a new siren for his car, an individual was heard to ask: "What happened to the blonde?"

A preacher in a neighboring town, trying to increase attendance at his services, hung up this sign: "A hearer is a poor vehicle to come to church in. Why wait?"

Blairmore fans formed half the audience at the Coleman Crystal rink on Friday night for the first two periods. Two hundred and eight Colemanites squeezed in via the Scotch method for the third stanza.

The marriage of Miss Katherine, daughter of Mr. and Mrs. Joseph DeCocco, to Joseph Kinaldi, was solemnized at the Holy Ghost church, Coleman, recently, by Rev. Father Lehman.

The Drumheller Mail remarks: Communism cannot be suppressed merely by locking up party leaders and confiscating party property. The one sure way to abolish Communism in our midst is to concentrate on providing security for Canadian citizens.

Kirbley has extended an invitation to the Winnipeg Allan Cup holders, who are contemplating making a tour of the west, to pay them a visit. What about Blairmore doing likewise. It may be possible to get in on the itinerary.

Messrs. Sanburn and Mitchell, officials of the East Kootenay Power Company, are holding conference with members of the Blairmore town council this afternoon, on matters affecting their distribution line through Blairmore.

Society note: We saw Danny Lewis in the back lane with a "chicken" on Tuesday afternoon. Danny says that the chicken was a notorious rood from Rhode Island, and he didn't care to try conclusions with her on the front street.

The opening game of the Crow's Nest Park Hockey League 1931-32 season on Friday night at Coleman resulted in a win for the locals 4-2. The game throughout was well contested and the Coleman Miners (juniors) showed up excellently.

**BLAIRMORE UNITED CHURCH**  
Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

Services Sunday, December 13th, the pastor in charge.

11 a.m.—SENIOR SCHOOL  
2 p.m.—JUNIOR SCHOOL

7:30 p.m.—PUBLIC WORSHIP.

Special services marking the opening of the new gymnasium and school rooms. Dr. Powell will address the senior school at 11 a.m. and will be the guest speaker at the public worship.

Special music for the evening will be a violin solo by Mrs. Jones and a vocal solo by Mrs. Bannan. It is hoped that the offering will be very generous.

Work will be sufficiently far advanced on the new gymnasium and school rooms by Tuesday next to enable us to hold a Turkey Supper in the building. A nominal charge of 50c will be made for adults and 35c for public school children.

You are invited to inspect the work, enjoy a first class supper and help provide funds toward completing this long needed addition to the church plant, all at a cost of 50c.

After supper a first class concert will be held in the church.

**ST. LUKE'S, BLAIRMORE**  
A. S. Partington, Vicar

Services December 13th, 3rd Sunday in Advent: Children's service at the church at 10 a.m. Celebration of Holy communion at 11 a.m.

Tonight, and each Thursday during Advent, services will be held in the church at 7:30 o'clock.

#### CHANGES IN HOCKEY RULES

Kicking the puck—The constant demands of the public for faster play and fewer stoppages has produced a new change this season in the form of an amendment of the amateur rules to allow kicking the puck by both teams in the centre area. Formerly the defending team was allowed to kick the puck in its own defensive area only.

The new rule will enable the team to kick the puck anywhere up to their opponents' defensive blue line. However, this does not permit the attacking team to kick the puck over their opponents' defensive blue line. The puck must be touched by a player's stick before crossing the line.

For the purpose of this rule kicking or carrying the puck with a skate is considered kicking.

Off-side—This is perhaps the most difficult feature of the rules from the official's standpoint. Some confusion has arisen by reason of conflict within the rules themselves. This is particularly true in two cases:

(a) Skating a team-mate on side after passing the puck across the opponents' defensive blue line.

In this case there has been no change in the rules themselves, but they have now been interpreted to mean that the player carrying the puck or the player who last touched it must be the first person to cross the opponents' blue line—otherwise it is an offside and the puck must be faced off on the blue line.

(b) Passing the puck backwards after crossing the opponents' defensive blue line.

The new interpretation of this rule is that the person making the pass backwards puts himself offside and thereby creates an offside play unless he has crossed his opponent's goal line before making the pass backwards.

Scoring a goal off the body of a team-mate—Formerly there was some doubt about whether a goal could be scored in this fashion or not. It has

now been definitely determined that a goal cannot be scored off any part of an attacking player's body or equipment except his stick.

It was remarked Tuesday morning that the Coleman Canadians were glad of the opportunity to meet Blairmore, mainly to give their players a chance to take lessons in back-checking from Jim McVey. It was because they insisted on learning more that Jim had to drop his stick and 'back-check' some more.

The misfortunes of motoring were experienced on Saturday by Constable Jack Raddiffe, of the A.P.F., and Constable Feden, of the C.N.R. force, when they started out on a non-stop run to Calgary. After travelling along the highway for several miles, a blow-out occurred. The spare was brought into use, but at the thirty-mile point the spare gave out also, necessitating a return to Drumheller via wrecking car. Constable Raddiffe is receiving much gratuitous advice concerning reliable makes of tires from his fellow officers this week.—Drumheller Mail.

Word has been received of the death of B. J. Lawton at Amherst, Nova Scotia, which occurred on Wednesday of last week. The late Mr. Lawton was widely known throughout the Maritime Provinces, and had many friends in Calgary. He was the father of Mrs. Kenneth Craig, of Nanton, formerly of Blairmore, and is survived by his widow and family.

"Jimmy" Joyce showed up his real mettle in the hockey game here on Tuesday night. Jimmy displays a brand of hockey that is the cleanest and most effective ever witnessed locally, and with his assistance the Coleman aggregation should go a long way this season.

In four unanimous judgments written by Chief Justice Horace Harvey, the appellate division of the Supreme Court of Alberta dismissed the appeals and upheld convictions and sentences imposed by Mr. Justice Tweedie on Joseph Farby, Benjamin Dworkin, James Campbell, David Jones, Sophie Sheinin and Hans Thernes. The accused, alleged Communists, were convicted of being members of an unlawful assembly on June 29th. Farby and Dworkin were sentenced to ten months; Jones, Sheinin and Thernes to six months, and Campbell one year.

The Mine Workers Union of Canada and the Workers' Unity League, both with Dominion-wide connections were branded as "unlawful organizations" by His Honor Judge Ousley, at Moose Jaw, in a judgment handed down in district court, dismissing the appeal of James Bryson, of Lethbridge, organizer of the Miners' Union, who was sentenced to 30 days in jail on a vagrancy charge on October 21st. The accused, who worked in the Estevan field during the recent labor troubles, stated in his testimony that he was a member of the Workers' Unity League of Canada, affiliated with the Red International of labor unions.

Certain fans have an idea that vociferous booing signifies real fan-ship, but to the ordinary visitor from other parts it appears like poor sport. It was very noticeable at the local arena on Tuesday night that booing came from a section of the arena occupied largely by Colemanites, and was used to the fullest when the Blairmore team made its appearance, while a directly opposite attitude was accorded the Coleman boys at all times by the balance of the audience. As a matter of fact the so-called "war" between Coleman and Blairmore does not exist between the teams, but among a few supposed-to-be fans, who are too narrow-minded to be real sports.

From Our Own Correspondents

### COWLEY HAPPENINGS

Mrs. Elsie Duffield has returned from spending a few days at Spring Ridge.

Several of the local artists attended the dance at Lupdreck on Friday night.

On Wednesday night, a very successful bazaar, sponsored by the Ladies' Auxiliary of the Anglican church, was held in the Masonic hall. A very attractive display of articles of various kinds was on sale.

During the early part of the evening, the booths were crowded with purchasers, many of whom were intent on doing a bit of Christmas shopping. After the crowds cleared away, a number of tables were arranged, when a lively whist drive took place, at which the lucky prize winners were: ladies' first, Mrs. A. G. Swart; second, Mrs. A. A. Black; gent's first, Mrs. Jamieson; second, Jim Smith; while the consolation prizes were awarded to Mrs. C. J. Bundy and Harry Pratten. This very pleasant evening was brought to an end by indulging in two hours of dancing, good music being furnished by local talent. The handsome sum of around forty dollars was added to the church fund.

On Thursday night, a surprise party was sprung on Miss Nellie McWilliams, when a jolly crowd attended, who, when an entering her apartments in the Christie block, took possession, when she was entertained right lively with witty games and "just making whoopee," with a few hours spent in tripping the fantastic toe to excellent music by the radio. As the ladies attended with lots of good things to eat, a dainty repast was served. Everybody happy!

On Monday night, Mr. and Mrs. M. A. Murphy entertained at bridge. Prizes were won as follows: ladies' first, Miss Nellie McWilliams; consolation, Mrs. Jamieson; gent's first,

Wilfrid Tustian; consolation, Harry Pratten. An appetizing luncheon was served by the hostess.

On Friday night, Miss Jennie Hein gave a whist drive at the Todd Creek school house, in aid of the Christmas Tree fund, which she is raising by her own efforts to buy presents for the pupils of her school.

The monthly meeting of the Ladies' Aid of the United church was held at the home of Mrs. E. Cowin on Thursday afternoon, with a good attendance of members.

The ice on the river is now reported being four or five inches thick. Skating parties are frequently seen there days on the stretches of ice by both Mrs. Latta's and A. J. Snyder's places. The village young folks are taking advantage of this bit of sport while the weather holds good.

### HILLCREST HAPPENINGS

A very successful whist drive and dance was held in the Catholic hall on Monday night, under the auspices of the Welsh Society. Whist prizes were won by Mrs. D. Thomas and Nick Andreashuk.

Mrs. T. O. Davis entertained friends at bridge at her home on Saturday evening.

The main road is open for traffic into Hillcrest, although motorists are having considerable difficulty between Hillcrest and the station. The weather is very favorable for ice-making, but no definite move has been made yet as to opening of the "ink."

A meeting of the juvenile hockey boys was held in the Community hall last Wednesday. It was decided that the Hillcrest and Bellevue boys would unite to form a juvenile hockey team. Fred Ballew returned on Tuesday morning from Calgary, where he had been a patient at the Holy Cross hospital for the last three months.

Several cases of whooping cough have been reported in town.

Mr. and Mrs. G. Lethian, of Lethbridge, were guests of Mr. and Mrs. J. Douglas last week.

John Makin, junior, is at present residing in Mountain Park, where he has been engaged to play hockey this season.

The Welsh party are organizing a community Christmas Tree.

### BELLEVUE HAPPENINGS

Mrs. Holmes, of Coleman, was a Bellevue visitor on Monday.

Mrs. H. Campbell and Mr. J. Fourneau are patients in the Dr. Kay hospital at Nordegg.

The Polish Society held a dance in the Catholic hall on Tuesday, December 8th.

The Bellevue Bulldogs played their first league game here last night against Pincher Creek.

Bellevue Boy Scouts are around town selling tickets for the Elks' turkey draw.

J. J. McIntyre arrived home on Sunday from Winnipeg, where he had been on business.

Maurice Truitt had the misfortune to have his face cut open while skating at the arena on Friday night.

H. Barlaas has resigned as secretary of the Bellevue Arena Company, and Mr. C. Ritchie succeeds him in that position.

Mrs. C. W. Johnson and Miss Ivy Johnson entertained a number of young friends at a sewing bee at the home of the latter on Wednesday evening last. After the bee, games were played and a dainty supper was served.

The whist drive and dance held in the I.O.O.F. hall on Friday last was fairly successful. The lucky winners were: Mrs. W. Cox, ladies' first prize; Mrs. M. D. McEachern, second; Norman Evans, gent's first, and J. Fisher, second.

Miss Gertrude May spent the week end in town, guest of her sister, Mrs. James Kerr.

An enjoyable evening was spent at the home of Mrs. D. Morris on Monday.

day, when Miss B. Morris entertained a number of her friends. Games were enjoyed the early part of the evening, after which a very dainty supper was served.

### CORBIN HAPPENINGS

The fortnightly bridge game, sponsored by the Rebekahs, was held in the new hall on Thursday evening last. Mrs. M. Gibson won first prize and Mrs. T. Rear was awarded the consolation. The hostesses for the evening were: Mrs. Taylor, Mrs. Roberts, Miss Timaeus and Mrs. Stone.

A number of local citizens patronized the Coleman-Blairmore hockey game on Tuesday of this week.

The Pythian Sisters have made all arrangements for a dance to be held in the B. and B. hall on Friday, December 11th.

The rink was officially opened for skating this week. Hockey practices have begun and a game is scheduled here for the end of the week.

The Community Club held a very successful dance on Friday night, with the Troubadors from Michel playing a selection of popular dance airs. These proved very successful in keeping the crowd pepped up 'till dancing halted at 2:30 a.m. A General Electric telephone mantle clock was won by Ches. Carter.

Mr. and Mrs. Frank Barker, of Cincinnati, who have been the guests of Mr. and Mrs. Barney Lyne for the past two weeks, left for Michel this week, where they will visit friends.

### BLAIRMORE PUBLIC LIBRARY

Books being placed on the shelves this week are:

"The Beauport Road," by J. E. Rossignol; "The Green Eyes of East," by Sax Rohmer; "The Manning-Burke Murder," by Tracy; "The Garden of Folly," by Stephen Leacock; "David Harum," by Westcott; "The Lighted Way," by Oppenheim; "Phantom Wires," by Arthur Stringer; "Abraham Lincoln," by Charnwood; "Fundamentals of Health," by Kirkpatrick and Huettner;

The library hours are Tuesdays and Thursdays from 7 to 9 p.m. and Saturdays from 7 to 10 p.m. The fees are \$1.00 per year for residents and \$2.00 per year for non-residents.

The greater portion of the Jordan Memorial Sanatorium, near Moncton, New Brunswick, was destroyed by fire on Tuesday.

### 1931-32 HOCKEY SCHEDULE

In order to make our hockey schedule more understandable, we reproduce same for the benefit of hockey fans:

Tomorrow night, December 11.—Bellevue Bulldogs at Coleman Canadians, and Bellevue Terriers at Pincher Creek.

Monday, December 14.—Coleman Miners at Bellevue.

Wednesday, December 16.—Pincher Creek at Blairmore.

Thursday, December 17.—Bellevue Terriers at Bellevue Bulldogs.

Friday, December 18.—Coleman Canadians at Coleman Miners, and Blairmore at Pincher Creek.

Tuesday, December 22.—Blairmore at Bellevue Terriers.

Wednesday, December 23.—Pincher Creek at Coleman Canadians.

Monday, December 28.—Bellevue Bulldogs at Blairmore, and Coleman Miners at Pincher Creek.

Wednesday, December 30.—Pincher Creek at Bellevue Terriers.

Monday, January 4.—Coleman Miners at Bellevue Bulldogs.

Wednesday, January 6.—Blairmore at Coleman Canadians.

Friday, January 8.—Bellevue Terriers at Blairmore, and Coleman Canadians at Pincher Creek.

Monday, January 11.—Bellevue Bulldogs at Coleman Miners.

Tuesday, January 12.—Coleman Canadians at Bellevue Terriers.

Wednesday, January 13.—Bellevue Bulldogs at Pincher Creek.

Thursday, January 14.—Bellevue Terriers at Coleman Canadians.

Friday, January 15.—Blairmore at Bellevue Bulldogs.

Monday, January 18.—Coleman Miners at Blairmore.

Tuesday, January 19.—Bellevue Bulldogs at Bellevue Terriers.

Wednesday, January 20.—Pincher Creek at Coleman Miners.

Friday, January 22.—Coleman Miners at Coleman Canadians.

Monday, January 25.—Coleman Canadians at Bellevue Bulldogs.

Tuesday, January 26.—Bellevue Terriers at Coleman Miners.

Again we might mention that the game is being played on the ice of the last named team in each case, and that the above schedule is subject to being changed by circumstances over which the League has no control.

C. Bannister, prominent Okotoks hockey player, was seriously injured in an auto accident on the Macleod trail south of Okotoks last week.

James Lloyd, who underwent an operation for appendicitis in the local hospital, recently, is making good progress towards recovery.

Adam Lorimer, former resident of Bellevue, passed away at Guelph, Ontario, recently. Mrs. Ferguson, of Coleman, is a sister.

We hope there is no truth in the rumor that Miss Clements of Coalfield school has had to cancel the Christmas concert for the children. We have heard how the children were enjoying it and think it makes a nice change for them. So often just such small beginnings are the stepping stones of self-expression in later life, which is a boon to womanhood and manhood during life's activities.

We sincerely thank some kind-hearted individual for a donation of a pair of thirty-cent socks last week end; also another party for so thoughtfully supplying a spool of yarn for repair purposes. But now we are at a loss to know how to manage without a darning needle, and would gladly offer ten all-day suckers to the first person arriving with the necessary implement. Kindly note: we want a needle to match the yarn, which is red.

The Beaver Mines correspondent to Pincher Creek Echo.

## WORLD HAPPENINGS BRIEFLY TOLD

Direction and control of the Mint, located at Ottawa, was assumed officially by Canada December 1.

British Columbia, through its legislature, will be urged to adopt state health insurance next year by the Health Insurance Commission.

Voluntary contributions to the Canadian Red Cross this year have been larger than for any year since the war.

As a memorial to Christopher Columbus a great lighthouse shaped like a cross is to be built on the island of Santo Domingo.

Hundreds of Great War prisoners still are held in Siberian labor camps, according to Giuseppe Girardi, an Austrian soldier, who has just escaped after 16 years' incarceration.

A group of Chicago engineers have developed a "radically different" airplane weighing only 475 pounds empty which they think will eventually sell for \$1,000.

A beam of light from the star Arcturus, 25 trillion miles from the earth, will provide the impulse, through a photo-electric cell, that will open Chicago's 1933 World Fair.

The National Service Loan was remarkably successful. It is estimated if the lists had been kept open another week there would have been subscribed \$400,000,000.

The British Admiralty has resolved in the interests of economy that the system which has been pretty generally followed of promoting officers upon retirement, or afterwards, shall be abolished.

An X-ray tube, taking a snap-shot in one-thousandths of a second, has made its debut at St. Louis, Montana. Dino Grandi, Italian Foreign Minister, stated Italy would give full support to the disarmament conference at Geneva in February.

Newfoundland's New Stamp Princess Elizabeth's photograph will appear on a stamp for the first time when a new issue of Newfoundland postage stamps is issued on January 2, 1932. The portrait of the Duke of York's daughter will be used on a six-cent stamp.

Last year Canada's lobster fishery yielded a catch of over 40,726,000 pounds and was second only to the salmon fishery in point of market return, the value being \$5,215,000.

Glass of a greenish yellow hue invented in Germany for greenhouses is said to admit a light that speeds germination of seeds planted underneath it.

The dog has his day, the cat his night and the road-hog has all Sunday afternoon.

Ex-King Alfonso may take up ranching, according to reports.

Visitor: "You say your master is dead. What did he die of?"  
Footman: "I don't know yet—I haven't asked him."—Buen Humor, Madrid.

W. N. U. 1912

## Experiment Was Costly

Labor Government in Australia Found Meat Business Unprofitable

A Labor government in Queensland, Australia, decided, several years ago, that the public was paying too much for meat, and plunged into the business. It purchased a number of splendid ranches and put government officials in charge. The advance picture drawn by the politicians was one of assured profits and cheaper meat. The actual results were enormous deficits and dearer meat. The final blow came with the sale of the ranches. They cost \$6,359,000, besides which the government raised \$5,750,000 to meet operating losses, or a total outlay of \$12,109,000. And all the state got back when it sold out was \$2,600,000.

The disastrous experiment in socialism cost every man, woman and child in Queensland \$10 more each in taxes.

## Another Victim to Science

Second Montreal Doctor Dies of Mysterious Infection

Second victim of a mysterious infection picked up while doing research work in continental universities two years ago, Dr. Joseph E. Gallagher, surgeon attached to the Montreal General hospital, died Wednesday after long suffering. The first victim was Dr. H. Stewart, who died six months ago.

The surgeons, friends, went to Europe in 1929 to do some post-graduate work in London, Berlin and Viennese hospitals. Both returned with a mysterious infection picked up apparently in the course of their work. Both are now dead from blood poisoning.

## Height Makes Big Difference

When you go to the top of the Empire State Building, New York City, the world's tallest man-made structure, you can see the sun rise half hour earlier and set a half hour later than from the street level. That is the difference a height of 1,248 feet makes.

In the historic old German meeting house at Waldoboro, Maine, church services have been held regularly for 159 years.

## FASHION

## Better Farming Societies

Getting Together To Study Better Farming and Agricultural Problems During the Winter Months

The Hon. James F. Bryant, K.C., Chairman of the Commission on Conservation of Water and Afforestation, for Saskatchewan, stated recently that it was generally recognized that owing to conditions in the dried out areas, many of the farm homes are not able to afford the papers, magazines and general reading matter that came into these homes in previous years. Under these circumstances, owing to the long winter ahead, an effort should be made to create a common interest which would bring the farmers together to consider their problems and endeavour to take some sane constructive measures to remedy present conditions in the rural districts of southern Saskatchewan.

"As Chairman of the Commission on Conservation and Afforestation," said Mr. Bryant, "I received a letter from F. Freeman, of Springfield, Saskatchewan, secretary of the Rural Municipality of Bushville, which was very encouraging and which suggested a plan that might with great profit be adopted in each municipality in the dried out areas of the province.

"At the annual meeting of the ratepayers of the above municipality, on the suggestion of the secretary, a local 'Better Farming Society' was formed for the purpose of obtaining all available information on farming. The Society will meet once in two weeks at the most central point in the municipality to discuss and exchange ideas. The whole programme to be devoted to 'Better Farming' discussions; political and economical discussions to be strictly prohibited as they might tend to dissension and friction, resulting in waste effort when through a careful study of better farming problems it would not only create great interest but be of great benefit to all. The first meeting of the above Society will include a paper on 'Strip Farming Methods' by Mr. Monahan, of Alberta, and the members of the local society are trying to get all the available information on this subject for discussion.

"I desire to urge the formation of similar 'Better Farming Societies' in all the dried out areas. I feel that it would be a matter of great value to the farmers themselves, and to the Province of Saskatchewan, if such meetings were held all over the southern part of Saskatchewan, especially to study 'Better Farming' and 'Agricultural' problems in their relationship to drought and soil drifting in order to interest our people in permanently removing the causes of drought conditions by intelligent and united action.

"The whole question of climatic conditions as affected by the lack of conservation of water and the absence of trees would invite a most interesting field for study and discussion.

"To get material for the papers and discussions, the members might obtain a limited quantity from the Department of Agriculture, Regina, of such pamphlets as the Report of the Royal Commission of Inquiry into Farming conditions in 1920, 'strip farming, crop rotation, and many others. Valuable pamphlets could be obtained on tree planting from the Forestry Station at Indian Head; on subjects from the Agricultural College, Saskatoon, and the Experimental Farms and the Department of Agriculture, Ottawa, and the subjects of fruit growing, vegetable growing, stock raising, mixed farming, crop rotation, grasses and clover might well be studied.

"It might also be possible to obtain outside speakers,—say once a month or once or twice during the winter. Any member of the commission on Conservation and Afforestation would be pleased to assist so far as his other duties permitted. Dean Shaw and members of the Extension Department staff of the Agricultural College, Saskatoon, Norman Ross of the Forestry Station, Indian Head, members of the staff of the Experimental Farms and of the Department of Agriculture, Regina, might be obtained. Perhaps Professor Kirk of Ottawa might be persuaded to give a few addresses when he visits the West in December or January. Subjects for discussion and short addresses prepared for meetings might be broadcast through the 'Saskatchewan Farmer' radio school. Farm papers such as the 'Western Producer', the 'Saskatchewan Farmer' and the 'Country Guide', the 'North-West Farmer' and the 'Free Press Prairie Farmer', might, if requested, get several splendid articles prepared and published them in order to assist in studying the problem.

"I strongly urge the formation of such societies at the earliest possible date. The initial meeting of farmers might well be arranged by the secretary-treasurer of the municipalities in the drought areas."

Lady Cholmondeley has surrounded herself with a most excellent cast, included in which will be Norman Page, former dramatic head of the Royal Academy of Dramatic Art in London, England.

Lady Cholmondeley's husband, Lord Cholmondeley will come to Canada

## Tour Of Lady Cholmondeley

British Theatrical Company Will Visit Western Canada

Lady George Cholmondeley, accompanied by her theatrical party of London artists, sailed on board the Cunard liner "Albatross" from Southampton recently, for an extended tour of Canada that will take them from Halifax to Victoria.

Their tour of Canada, which is attracting considerable attention, will not only have the distinguished patronage of Their Excellencies, Lord and Lady Beesborough for the opening performances in Montreal, Ottawa, and Toronto, but Lord and Lady Beesborough have signified their intention of also attending the opening nights in these three cities.

Interest is also being shown in this tour of Lady Cholmondeley and her company, on account of her association with the Stansford Players, a dramatic society founded by the present Governor-General of Canada. The Stansford Players have for several years given performances regularly in the private theatre which Lord Beesborough built alongside his country house, "Stansford," in Sussex, England. Lady Cholmondeley is a brilliant member of this society and has taken part in a number of productions at Stansford Theatre. She played the part of the wife in George Bernard Shaw's "How He Lied To Her Husband" at the last production given at Stansford before Lord Beesborough came to Canada last spring. It has been noted that Lady Cholmondeley's productions in Canada will include ballets as well as plays. She herself is a brilliant dancer, as those who saw the "Blue Bird" in London, England, will remember, and her dancing and arrangements of dances at Stansford have been a special feature of the Stansford productions.

After playing in Montreal the company will move to Ottawa where the Governor-General and Lady Beesborough will be present when they open on December 21st. They will play in that city for one week before going to Toronto. After a week in Toronto during which time they will give ten performances, the company will spend three days in London, Ont., and Hamilton before continuing for the West. They open in Winnipeg on January 4th for one week.

Regina will be the next city visited where they will open a three day engagement on January 11th. Saskatoon, Edmonton and Calgary will also be played in before the company goes to the Coast where they play in Vancouver commencing on February 1st.

After finishing in Victoria the Lady Cholmondeley company will return to the Coast once more in Edmonton, Regina, Saskatoon and Winnipeg. Fort William will be played in on the return trip. The company will then play in Hamilton before going to make a second visit to Ottawa, and after that they will play in Kingston, Brockville and Peterboro following which they will return to Toronto for a week.

Their last performances will commence in Montreal on April 18th, again at His Majesty's Theatre, and they expect to sail home to London, England, the week following.

Lady Cholmondeley has surrounded herself with a most excellent cast, included in which will be Norman Page, former dramatic head of the Royal Academy of Dramatic Art in London, England.

Lady Cholmondeley's husband, Lord Cholmondeley will come to Canada

early in the New Year and will return to England with them.

It is expected that the tour will be under the distinguished patronage of the various Lieutenant-Governors of each of the provinces which the company will play in.

## SUNDAY SCHOOL LESSON

DECEMBER 13

### JOHN'S VISION ON PATMOS

Golden Text: "Fear not, I am the first, and the last, and the Living One."—Revelation 1:17, 18.  
Lesson: Revelation 1:1 to 3:22.  
Devotional Reading: 1 Corinthians 15:42-49.

### Explanations and Comments

The Address Or Salutation, verses 4-7.—With this salutation compare the salutations in Paul's letters, especially 1 Thessalonians 1:1, 2. John, to the seven churches that are in Asia; this was a common form for the beginning of a letter. As we learned in Paul's history in The Acts, Asia, nor for the peninsula of Asia Minor, but for a Roman province in that peninsula. It was to these churches (named in verse 10) that the Book of Revelation was primarily written, the churches with which John was personally acquainted. Revelation 2:16. "Seven" is a number representing completeness, and therefore meaning "all."

To the seven churches John invokes grace and peace from Him who is, and who was, and who is to come, probably making use of a solemn and stereotyped phrase to describe the Creator. There is evidently here an allusion to Exodus 3:14, where Jehovah reveals Himself as the Great I Am, the Self-existent, and Eternal. And from the seven Spirits that are before the throne; again the number seven, for this is a combination of the idea in Psalm 104:4 with the latest Jewish idea that the number of the chief angels was seven. And from Jesus Christ, who is the faithful witness. Compare Revelation 1:2 and 3:14; and Jesus' own words, "I bear witness to the truth," John 18:37. Jesus Christ the first born of the dead (the first of the dead to "enter life"; compare Colossians 1:18) and the ruler of the kings of the earth (a paraphrase of the language of the Eighty-Ninth Psalm).

Unto Him that loveth us: "Perhaps you first wrote 'loved' and then thought him, 'Why should I say 'loved' when He loves us still?' And loosed us from sin by His blood; delivered us from sin by the shedding of His blood on the cross. And He made us to be a kingdom: Christ's followers not only inherit a kingdom, but they are a kingdom, a society under His Majesty. He will give us unto His God and Father; see Exodus 19:8. In former times other men had been priests, or mediators between God and men; now such are no longer needed for each one has direct access to God. To Him be the glory and the dominion for ever and ever, unto the ages of the ages. Compare Romans 16:27; 2 Timothy 4:18; Hebrews 13:21; 1 Peter 4:11.

The Hawaiian Islands broke their temperature record this year with a 100 degree temperature, and it happened, not in August, but in April.

## Local and General Items

The Sullivan mine at Kimberley is now working full time.

C. W. Burt has been re-elected Mayor of Cardston for a fourth term.

The new Dominion Service Loan has been over-subscribed by \$65,000, 000.

The remains of Mrs. Ledieu were laid to rest in the Union cemetery at Coleman on Monday afternoon.

School district election results at Edmonton were about completely reversed on a recount.

A whist drive and dance will be held in the Moose hall tomorrow night, under auspices of the W.O.M.L.

Lumberton and Cranbrook are combining forces to make a senior hockey team.

Rinaldo Pozzi left by Sunday night's train for Italy, via New York. Mr. Pozzi will be away three or four months.

Someone asked last night why Sid Newman was sneezing, and was told he was practicing on a new horn for the Greyhound bus.

Capt. Beebe attended the whist social in the lodge hall on Friday night and enjoyed, so he says, a dance for every year of his advanced age—eighty four.

Premier Harrington, of Nova Scotia, is ill in hospital.

Cranbrook, Kimberley and Fernie have formed a senior hockey league.

Mr. Justice Newcombe, of the Supreme Court of Canada, died at Ottawa yesterday.

The Bellevue Bulldogs defeated Pincher Creek last night to the tune of 11 to 3.

The Mooseheart charity hall at the Columbus hall last night was very largely attended.

Word comes from Hillcrest that James Lote is recovering rapidly since his recent operation.

Jimmy Joyce remained in the hockey game on Tuesday night for the full eighty minutes.

The local lodge of Pythian Sisters will be favored with a visit from the new Grand Chief at a special meeting being held tonight.

Bills will appear tomorrow, announcing Christmas bargains and grab package sale at the F. M. Thompson Co. store.

A. E. White, of Fernie, has been named to succeed A. J. Moffatt as city clerk at Fernie. There were sixty-two applications for the position.

A lady fancy skater at the Blairmore arena a few nights ago tried to show an asterisk.

Disatisfied with working conditions at the Sovereign mine, workers at Wayne have suggested a strike.

Monday, January the 18th, has been set as the opening date of the Crows' Nest Pass curling bonspiel at Coleman.

Albert Knowles provided a very fine sheet of ice on the Coleman Crystal Rink for the hockey game Friday night.

Miss Kilgannon returned to her home in Blairmore, after spending some weeks with her cousin, Mrs. Tom Murphy—Kimberley Courier.

At the regular meeting the town council on Monday night, Mr. Pitt's boat was tabled, and will likely come up again at a later date.

"Gusty" Vangotsinoven is so annoyed at the manner in which his name has been twisted and torn by the daily papers, that he feels obliged to ask for a new name.

Mrs. J. Baird desires through The Enterprise to thank all who assisted or offered assistance during her recent illness, also for numerous flowers sent to the hospital and her home.

In an election of officers at Coal Creek and Fernie, it was found there were considerably more ballots in the boxes than the number of men who voted, and as a result the election was declared void.

Just before the hockey game here on Tuesday, Bill Gates and Tony Vejprava received word that their suspension had been lifted. Tony refereed the hockey game, but Bill Gates assumed position with the team.

A number of local Oddfellows and Rebekahs journeyed to Lethbridge on Friday evening last, where they witnessed degrees conferred and attended a very pleasant social gathering. Representatives were present from practically all points in Southern Alberta. A most enjoyable time is reported by all who attended from this district.

The Macleod Gazette, twenty-eight years ago this week, contained the following item: The Proctor-Fishburn coal fields in the Blairmore vicinity had been sold to M. Fleutot at a price around \$125,000. V. Hyde Baker, of Cranbrook, was one of the beneficiaries by the sale, his interest being in the neighborhood of \$65,000. Other coal deals for land in The Pass district were under way to a large French company.

Blairmore booked the second successive win in the Crow League schedule by defeating Coleman on Tuesday night 5-4. Coleman had the best of the second and third periods but throughout were heavily back-checked by the Blairmore squad. The game was forced into overtime and with a score of 4-4 near the finish of the second overtime ten minutes, Hugh Manson placed the deciding goal for Blairmore. Lineups were as follows: Blairmore—Makin, Johnson, Manson, MacKay, McVey, Evans, Oakes, F. Anderson and Vangotsinoven; Coleman—Colagrasa, Joyce, F. Vejprava, Jenkins, Lilya, Fraser, Pattinson, Oliva and Gates. The game was refereed by A. Vejprava. Around four hundred fans were in attendance.

### IN MEMORIAM

In loving memory of my dear husband, Thomas Bradley, who passed away December the 13th, 1929.

"Time rolls on, and I am reminded Of a day my heart was crushed. When God took you, oh, so quickly, And we all in gloom were thrust. In the bloom of life death claimed you."

In the prime of manhood days, Sweet is his memory, that never will fade.

Ever remembered by his wife, Mary Bradley, and family.

### Sleepy Feeling After Meals Due To Poison

A dopey, tired feeling is ALWAYS a sign that waste food matter stays too long in the bowels. It ferments and forms gas. It breeds germs. It is sure to poison heart, kidneys, brain. Adierika washes out BOTH upper and lower bowel. It brings out poisons which cause gas, nervousness and a dopey, sleepy feeling. It contains no harmful drugs. Get Adierika today; by tomorrow you feel the wonderful cleansing effect of this German doctor's simple remedy. Blairmore Pharmacy.

The dairy business of William Antebus, at Coleman, has been purchased by the Crystal Dairy, of Blairmore.

Mrs. Juliette Ledieu, mother of Ed. Ledieu, died at Coleman on Thursday morning last, aged fifty-four. She was a native of Belgium, coming to Canada twenty-four years ago.

The death of Mrs. Paul Trudell, formerly Miss Braniff, of Pincher Creek, occurred at Armstrong, B.C., on November the 23rd. She was a sister of J. J. Braniff, now of Pincher Creek.

Blairmore's "strong aggregation" mentioned in the Coleman correspondent's reports to the daily press was absolutely the weakest we could muster to meet Coleman, barring Jimmy McVey, and gosh knows, he saw no occasion to do anything else but smile.

The ladies of St. Luke's church will hold a tea and pantry sale, and sale of sewing, etc., in the Parish Hall (former Upton tailoring shop) on Saturday, December the 12th, from 3 to 6 p.m.

DR. A. E. SHORE, of Drs. Gunn, Hackney & Shore, Calgary, will be at the office of Dr. R. F. Stewart, Blairmore, on the afternoon of Friday, December 18th. Anyone wishing to consult him with regard to Eye, Ear, Nose or Throat, please make appointment with Dr. Stewart.

FOR SALE, OR TRADE for 4 tons of No. 1 Timothy Hay, one Chevrolet Touring Car. Apply to F. M. Thompson Co., Ltd., Blairmore.

FOR SALE—Lumber, forge trower, portable forge, anvil, leg vice, pipe vice, belting, 3 and 5-ton chain blocks, 35 and 50-ton jacks, frame stable, two log houses and lots. Apply to CANADA CEMENT CO.

BLAIRMORE

Phone 105

Blairmore was connected up with the new trans-continental telephone system on Tuesday of this week, and we understand everything is working satisfactorily. The installation of apparatus for the new system here involves a large expenditure on the part of the Alberta Government Telephone.

Jimmy Burrill, of Blairmore, and Kid Hughes, of Michel, will try conclusions as welterweights in a boxing go at the local opera house on the night of December the 23rd. Bill Burrows, of Coleman, will referee this bout. There will be a splendid list of preliminaries.
